

 **glyco-buf** Ufac

The proven way to a healthy rumen **by** supplying glucogenic energy for high yielding dairy cows

# glyco-buf<sup>ufac</sup>

Glyco-buf is designed to maintain optimal rumen pH in high yielding dairy cows throughout their lactation. To maximise dry matter intakes and reduce negative energy balance, so as to optimise milk yield & constituents.

## Key Features:

- ✓ Slow release rumen buffer
- ✓ High content of glycerol
- ✓ Highly palatable

Rumen Buffer

Health

Glucogenic Energy

Milk Yield

Dairy

No Palm Oil

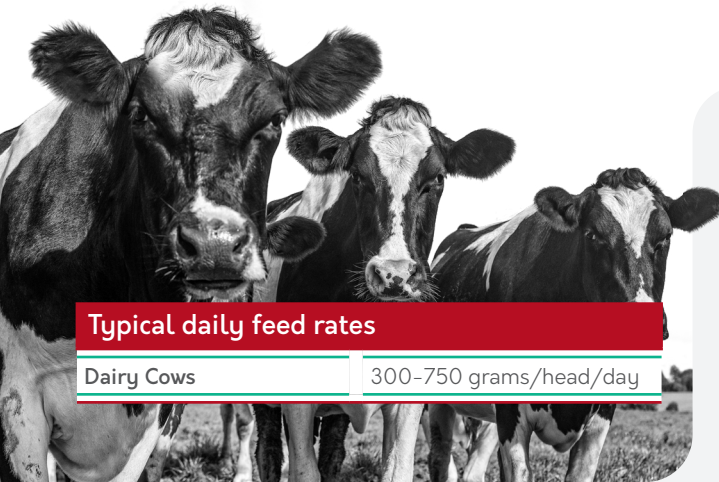

Eco Friendly

Made in the UK

## Key Benefits:

- ✓ Improved rumen efficiency, increased fibre digestion,
- ✓ Minimise risk of SARA
- ✓ Improve total dry matter intakes, reduced body condition loss and Negative energy balance
- ✓ Increased glucogenic energy supply to the liver, to optimise milk production
- ✓ Improves efficiency of fat utilisation
- ✓ glyco-buf acts as a preservative and helps maintain ration quality
- ✓ Reduces heating in TMR

### Typical daily feed rates

Dairy Cows

300–750 grams/head/day
