

Ufac omega cream

The combined C16:0 fat and omega-3 supplement for **outstanding all round performance**

Key Features:

- ✔ Contains high level of glycerine
- ✔ Contains soft highly digestible oils
- ✔ Contains C16:0 Palm oil
- ✔ Contains long chain omega 3 fatty acids from marine oil
- ✔ Outstanding energy density
- ✔ Reduces heating in TMR

ufac omega cream

This high C16:0 fatty acid supplement is suitable for herds on a milk composition contract.

Omega cream is a unique combination of essential fatty acids derived from highly digestible oils, C16:0 fats and omega oils giving a highly palatable free flowing meal designed to help optimise dairy performance.

Key Benefits:

- ✔ High inclusion of C16:0 (Palmitic acid) to support butterfat production in high yielding and late lactation cows
- ✔ Inclusion of C18:1 (Oleic Acid) and Glycerene helps improve fatty acid digestion
- ✔ Maintains Body Condition
- ✔ Contains Omega 3 fatty acids (EPA & DHA) from marine sources for improved immune status and reduced early embryonic losses
