

**promega**

The proven  
modern-day  
**replacement**  
**for fishmeal**

## The proven modern-day replacement for fishmeal.

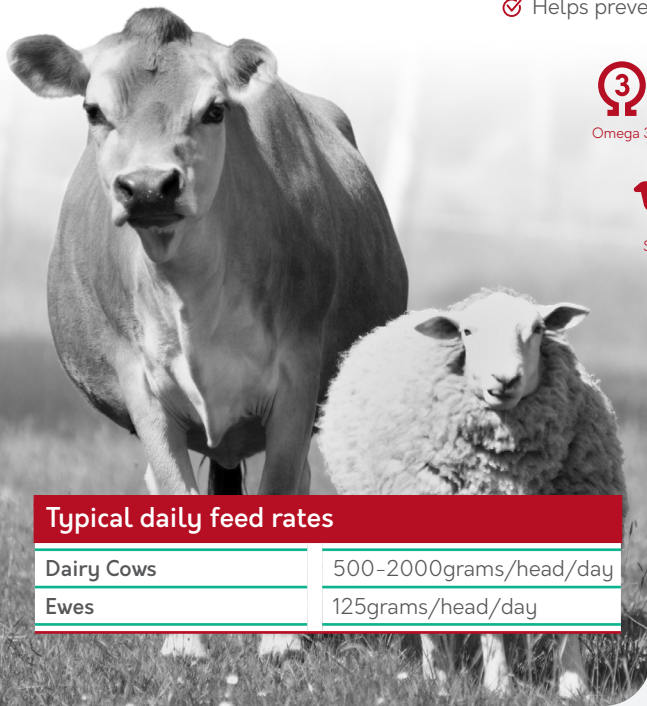

promega is a unique combination of quality proteins and essential fatty acids derived from highly digestible oils. It is as close as possible to get to traditional fishmeal with no drawbacks. It is a highly palatable free-flowing meal that provides the key nutrients high-performing livestock require, promoting better production and improved fertility. promega is also proven to increase milk letdown and yield in ewes, leading to stronger, faster-standing lambs.

### Key Features:

- ✔ Providing the supply of quality DUP required to support efficient milk production
- ✔ Providing EPA & DHA Omega-3 oils from marine oils, the most effective source
- ✔ Includes Glycerene

### Key Benefits:

- ✔ Higher milk yields
- ✔ More persistent peak yields
- ✔ Reduced body condition losses
- ✔ Greater reproductive efficiency
- ✔ Healthier, more profitable animals
- ✔ Boosting the immune system to improve overall health and efficiency
- ✔ Helps prevent twin lamb disorder
