

supa cream^{Ufac}

Suited to ALL stages of lactation, supa cream is the ideal supplement to boost energy when cows are managed as a single milking group. **It is the balanced replacement for calcium soaps and hydrogenated fats.**

Key Features:

- ✓ Formulated with the optimum ratio of C16:0 and C18:1 fatty acids
- ✓ Source of long chain Omega 3 fatty acids from marine oil
- ✓ Contains soft highly digestible oils
- ✓ Supplies Glycerene

supa cream^{ufac}

The unique fatty acid supplement suited to ALL stages of lactation. Supa cream is the ideal supplement for when cows are managed as a single milking group.

Supa cream is a precisely formulated blend of essential fatty acids derived from highly digestible oils. It contains the optimum ratio of C18:1 & C16:0 fatty acids, along with omega 3 EPA & DHA fatty acids, plus Glycerene all of which give a highly palatable free flowing meal. Designed to boost dairy cow performance.

Key Benefits:

- ✓ Supa Cream is formulated to optimise diet digestibility to increase energy
- ✓ Contains C16:0 to improve/maintain butterfat production
- ✓ Supplies C18:1 to aid BCS
- ✓ Includes Omega 3 fatty acids from marine source to improve health & fertility
- ✓ Inclusion of Glycerene improves fatty acid digestibility, provides glucogenic energy to reduce BCS loss & the incidence of sub-clinical ketosis
